**REMARKS/ARGUMENTS**

In a telephone interview with Examiner Stevens on July 3, 2006, the Examiner indicated that all of the application claims would be allowed if amendments were made to independent claims 1, 11, 28 and 38 to include a limitation similar to that appearing in present independent claim 20 requiring "sending an identification of the installed turbine to a manufacturer of the turbine." The above amendments to claims 1, 11, 28 and 38 were agreed upon even though not identical to the limitation in claim 20. In other words, the Examiner and applicants agreed that a limitation relating to manufacturer identification information would be sufficient, while not necessarily limiting the claims to a situation where it is the manufacturer that performs the claimed method.

Since all of the application claims are now in condition for allowance, passage to issue is requested. In the event, however, any additional small matters remain outstanding, the Examiner is again encouraged to telephone the undersigned in order to expedite the prosecution of this application.

Respectfully submitted,

NIXON & VANDERHYE P.C.
